**Attention: Representative Douglas McCrory-State House
District 7**

This letter is been written on behalf of The Nurturing Families Network Program. I am aware of the Nurturing Families Program and the benefits it has provided for first-time mothers in our city and in fact our state. I am writing this letter to impress upon you the importance of this program and to eliminate this program. I have known families who have been benefactors of this great program. The services and education they received weekly from the home visitors is phenomenal and we cannot place a dollar amount on it. Mothers are provided with the tools to be better parents. We need to keep this program operating so that indigent and mothers who are at risk for child abuse and neglect can continue to receive this very beneficial service.

Thank you for the awesome work that you are doing as my legislator. I look forward to supporting and working with you.

Sincerely,

Donna Redway
